Recognition Rooted in People

The NorthCoast 99 award recognizes organizations that excel in creating outstanding workplace cultures. Winners are selected based on key factors such as organizational culture, employee engagement, leadership practices, and total rewards programs. For more than two decades, the award has highlighted companies that prioritize the employee experience and foster environments where individuals can thrive both professionally and personally.

What makes this recognition especially meaningful is that it is informed by **direct employee feedback** gathered independently during the selection process. This distinction reflects the authentic experiences of our team members and underscores the strength of the culture we have worked together to build.

"This award celebrates more than our workplace culture" says Warren Rupp General Manager David Llewellyn, "It recognizes the values that define us, including our deep-rooted commitment to supporting the communities where we live and work. We believe that when employees are empowered to make a positive impact, everyone benefits."
